# UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

## **FORM 10-Q**

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2023

or

□ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_

Commission File Number: 001-40711

# **Orange County Bancorp, Inc.**

(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization) 26-1135778 (I.R.S. Employer Identification Number)

 $\mathbf{X}$ 

212 Dolson Avenue Middletown, New York 10940 (Address of Principal Executive Offices)

(845) 341-5000 (Registrant's telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading symbo <u>l</u>	Name of Exchange on which registered
Common Stock, par value \$0.50 per share	OBT	The Nasdaq Stock Market, LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes 🛛 No 🗆

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes 🗵 No 🗆

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer		Accelerated filer		
Non-accelerated filer	X	Smaller reporting company	X	Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes 🗆 No 🗵

As of May 8, 2023, there were 5,642,789 shares of the registrant's common stock outstanding.

(1) Commencing on January 1, 2023 the allowance calculation is based on the current expected credit loss methodology. Prior to January 1, 2023 the calculation was based on the incurred loss methodology.

## Note 1 — Nature of Operations and Summary of Significant Accounting Policies

*Nature of Operations and Principles of Consolidation:* The unaudited consolidated financial statements include Orange County Bancorp, Inc., a Delaware bank holding company ("Orange County Bancorp") and its wholly owned subsidiaries: Orange Bank & Trust Company, a New York trust company (the "Bank") and Hudson Valley Investment Advisors ("HVIA"), a Registered Investment Advisor, together referred to as the "Company." Intercompany transactions and balances are eliminated in consolidation.

The Company provides commercial and consumer banking services to individuals, small businesses and local municipal governments as well as trust and investment services through the Bank and HVIA. The Company is headquartered in Middletown, New York, with eight locations in Orange County, New York, seven in Westchester County, New York, two in Rockland County, New York, and one in Bronx County, New York. Its primary deposit products are checking, savings, and term certificate accounts, and its primary lending products are commercial real estate, commercial and residential mortgage loans. Substantially all loans are secured by specific items of collateral including business assets, consumer assets, and commercial and residential real estate. Commercial loans are expected to be repaid from cash flow from operations of businesses. There are no significant concentrations of loans to any one industry or customer. However, the customers' ability to repay their loans is dependent on the real estate and general economic conditions in the areas in which they operate.

Assets held by the Company in an agency or fiduciary capacity for its customers are excluded from the consolidated financial statements since they do not constitute assets of the Company. Assets held by the Company in an agency or fiduciary capacity for its customers amounted to \$1.4 million and \$1.3 million at March 31, 2023 and December 31, 2022, respectively.

Certain information and footnote disclosures normally included in the audited consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes for the year ended December 31, 2022 for Orange County Bancorp, Inc. contained in the Company's Annual Report on Form 10-K as filed with the Securities and Exchange Commission on March 24, 2023. In the opinion of the management of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting solely of normal and recurring accruals) necessary to present fairly the financial position as of March 31, 2023 and 2022 and cash flow statements for the three months ended March 31, 2023 and 2022. The results of operations for any interim period are not necessarily indicative of the results that may be expected for the full year or for any future period. Certain reclassifications have been made to the financial statements to conform with prior period presentations.

*Use of Estimates:* To prepare financial statements in conformity with U.S. generally accepted accounting principles, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided, and actual results could differ.

*Recent Accounting Pronouncements*: In December 2022, the financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2022-06, Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848. The amendments in this ASU defer the sunset date of Topic 848 from December 31, 2022, to December 31, 2024, after which entities will no longer be permitted to apply the relief in Topic 848. The ASU is effective upon issuance. The FASB had previously issued 2020-04 - Facilitation of the Effects of Reference Rate Reform on Financial Reporting and related amendments in 2020 to ease the potential burden in accounting for reference rate reform. The amendments in ASU 2020-04 were elective and applied to all entities that have contracts, hedging relationships, and other transactions that reference the London Inter-bank Offer Rate ("LIBOR") or another reference rate expected to be discontinued due to reference rate reform. The Company does not expect such adoption of the new ASU to have an impact on the Company's consolidated financial instruments.

The Company adopted ASU 2016-13 on January 1, 2023 for all financial assets measured at amortized cost and off-balance sheet credit exposures using the modified retrospective method. Results for the three months ended March 31, 2023 are presented under Accounting Standards Codification 326, Financial Instruments – Credit Losses, while prior period amounts continue to be reported with previously applicable GAAP and have not been restated. Effective January 1,2023, the Company recorded a \$1.9 million increase in allowance for credit losses on loans that is referred to as the current expected credit loss ("CECL") methodology (previously allowance for loan losses), an adjustment of \$1.4 million recording reserves related to acquired loans, and a \$520 thousand increase related to allowance for off balance sheet credit exposures included in other liabilities section of the consolidated statements of financial condition, which resulted in a total cumulative effect adjustment of \$1.5 million, net of tax, and a decrease to retained earnings a component of the stockholders' equity. Further information regarding the impact of CECL can be found in Note 3 – Loans and Allowance for Credit Losses.

The Company adopted ASU 2022-02, Financial Instruments – Credit Losses (Topic 326) Troubled Debt Restructurings and Vintage Disclosures ("ASU 2022-02") prospectively effective January 1, 2023. The amendments in ASU 2022-02 eliminated the recognition and measurement of troubled debt restructurings and enhanced disclosures for loan modifications to borrowers experiencing financial difficulty. The Company did not have any loans that were both experiencing financial difficulties and modified during the three months ended March 31, 2023.

## Allowance for Credit Losses

On January 1, 2023, the Company adopted Accounting Standards Update ("ASU") 2016-13, Financial Instruments – Credit Losses (Topic 326) ("ASU 2016-13"), which replaced the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss ("CECL") methodology. The measurement of expected credit losses under the CECL methodology is applicable to financial assets measured at amortized cost, including loan and lease receivables and held-to-maturity securities. It also applies to off-balance sheet credit exposures (loan commitments, standby letters of credit, financial guarantees, and other similar instruments). In addition, Accounting Standards Codification ("ASC") 326 made changes to the accounting for available-for-sale debt securities. One such change is to require credit losses to be presented as an allowance rather than as a write-down on available-for-sale debt securities which management does not intend to sell or believes that it is more likely than not they will be required to sell.

The allowance for credit losses represents the estimated amount considered necessary to cover lifetime expected credit losses inherent in financial assets at the balance sheet date. The measurement of expected credit losses is applicable to loans receivable and securities measured at amortized cost. It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the Consolidated Statement of Financial Condition in other liabilities and is recorded within the provision for credit losses.

#### Allowance for Credit Losses on Loans Receivable

The allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other loans, the Company will evaluate the loan on an individual basis. Individually evaluated loans are primarily non-accrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not

exceed the aggregate of amounts previously charged off or expected to be charged off. The Company does not estimate expected losses on accrued interest receivable on loans, as accrued interest receivable is reversed or written off when the full collection of the accrued interest receivable related to a loan becomes doubtful.

The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 3 – Loans and Allowance for Credit Losses.

#### Individually Evaluated Loans

On a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.

## Allowance for Credit Losses on Off-Balance Sheet Commitments

The Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded as provisions for credit losses in the consolidated statements of income.

#### Allowance for Credit Losses on Available for Sale Securities

For available for sale securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more than likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For securities available for sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax.

Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of an available for sale security is confirmed or when either of the criteria regarding intent or requirement to sell is met. The Company does not estimate expected losses on accrued interest receivable on investments, as accrued interest receivable is reversed or written off when the full collection of the accrued interest receivable related to an investment becomes doubtful.

## Note 2 — Investment Securities

The amortized cost and fair value of investment securities at March 31, 2023 and December 31, 2022:

	Amortized Cost	Gross Unrealize Gains	d	Gross Unrealized Losses	ACL Adjustment	Fair Value
<u>Available-for-sale March 31, 2023</u>						
U.S. government agencies and treasuries	\$ 102,194	\$ 2	27	\$ (8,538)	\$ —	\$ 93,683

Total debt securities	\$ 595,62	8 \$ 526,325

Securities pledged at March 31, 2023 and December 31, 2022 had a carrying amount of \$353,659 and \$323,674 and were pledged to secure public deposits.

At March 31, 2023 and December 31, 2022, there were no holdings of securities of any one issuer, other than the US Government and its agencies, in an amount greater than 10% of stockholders' equity.

The following tables summarize securities with unrealized losses for which an allowance for credit losses has not been recorded at March 31, 2023 and December 31, 2022, aggregated by major security types and length of time in a continuous unrealized loss position:

	Less than	12 Months	12 Montl	is or More	T	otal

U.S. government agencies Mortgage-backed securities	Fair Value \$ 47,064 150,542	Unrealized Losses \$ (2,414) (12,139)	Fair Value \$ 41,718 165,336	Unrealized Losses \$ (8,595) (35,653)	Fair Value \$ 88,782 315,878	Unrealized Losses \$ (11,009) (47,792)

As of March 31, 2023, the Company's securities portfolio consisted of 292 securities, 252 of which were in an unrealized loss position. As of December 31, 2022, the Company's securities portfolio consisted of 296 securities, 264 of which were in an unrealized loss position. Unrealized losses are primarily related to the Company's mortgage backed securities, U.S. government agency securities, and investments in obligations of states and political subdivisions as discussed below.

Available for sale securities are evaluated to determine if a decline in fair value below the amortized cost basis has resulted from a credit loss or other factors. An impairment related to credit factors would be recorded through an allowance for credit losses. The allowance is limited to the amount by which the security's amortized cost basis exceeds the fair value. An impairment that has not been recorded through an allowance for credit losses shall be recorded through other comprehensive income, net of applicable taxes. Investment securities will be written down to fair value through the Consolidated Statements of Income when management intends to sell, or may be required to sell, the securities before they recover in value. Primarily all of the investment securities are backed by loans guaranteed by either U.S. government agencies or U.S government-sponsored entities, and management believes that default is highly unlikely given the lack of historical credit losses and governmental backing. Management believes that the unrealized losses on these securities are a function of changes in market interest rates and credit spreads, not changes in credit quality.

The Company's available for sale debt securities portfolio includes corporate bonds and revenue bonds, among other securities. These types of securities may pose a higher risk of future impairment charges as a result of the changes in market interest rates, unpredictable nature of the U.S. economy and their potential negative effect on the future performance of the security issuers. Available for sale debt securities in unrealized loss positions are evaluated for impairment related to credit losses on a quarterly basis. Based on a comparison of the present value of expected cash flows to the amortized cost, the Company recognized a credit related charge of a corporate bond issued by Signature Bank due to its failure during the three months ended March 31, 2023 resulting in a provision for credit losses totaling \$5.0 million during the three months ended March 31, 2023. The Company also evaluated available for sale debt securities that are in an unrealized loss position as of March 31, 2023 included in the table above and has determined that the declines in fair value are mainly attributable to interest rates, credit spreads, market volatility and liquidity conditions, not credit quality or other factors. There was no impairment recognized during the three months ended March 31, 2022. Accrued interest on investments, which is excluded from the amortized cost of available for sale debt securities, totaled \$202 and \$931 at March 31, 2023 and December 31, 2022, respectively, and is presented within total accrued interest receivable on the consolidated statements of financial condition.

The Company does not intend to sell any of its available for sale debt securities in an unrealized loss position prior to recovery of their amortized cost basis, and it is more likely than not that the Company will not be required to sell any of its securities prior to recovery of their amortized cost basis.

The following table presents the activity in the allowance for credit losses associated with investment securities for the three months ended March 31, 2023:

Allowance for credit losses -investments:	
Beginning balance	\$ —
Provision for loan losses	5,000
Charge-offs	—
Recoveries	 
Ending balance	\$ 5,000

## Note 3 — Loans

Loans at March 31, 2023 and December 31, 2022 were as follows:

	 March 31, 2023	December 31, 2022
Commercial and industrial	\$ 254,592	\$ 258,901
Commercial real estate	1,192,501	1,098,054
Commercial real estate construction	116,077	109,570
Residential real estate	73,156	74,277
Home equity	12,067	12,329
Consumer	14,975	16,299
Total Loans	\$ 1,663,368	\$ 1,569,430
Allowance for credit losses	(24,726)	(21,832)
Net Loans	\$ 1,638,642	\$ 1,547,598

Included in commercial and industrial loans as of March 31, 2023 and December 31, 2022 were loans issued under the SBA's Paycheck Protection Program ("PPP") of \$1,710 and \$1,717, respectively.

#### Allowance for Credit Losses

The Company engaged a third-party vendor to assist in the CECL calculation and internal governance framework to oversee the quarterly estimation process for the allowance for credit losses ("ACL"). The ACL calculation methodology relies on regression-based discounted cash flow ("DCF") models that correlate relationships between certain financial metrics and external market and macroeconomic variables. The Company uses Proability of Default ("PD") and Loss Given Default ("LGD") with quantitative factors and qualitative considerations in the calculation of the allowance for credit losses for collectively evaluated loans. The Company uses a reasonable and supportable period of one year, at which point loss assumptions revert back to historical loss information by means of a one-year reversion period. Following are some of the key factors and assumptions that are used in the Company's CECL calculations:

- methods based on probability of default and loss given default which are modeled based on macroeconomic scenarios;
- a reasonable and supportable forecast period determined based on management's current review of macroeconomic environment;
- a reversion period after the reasonable and supportable forecast period;
- estimated prepayment rates based on the Company's historical experience and future macroeconomic environment;
- estimated credit utilization rates based on the Company's historical experience and future macroeconomic environment; and
- incorporation of qualitative factors not captured within the modeled results. The qualitative factors include but are not limited to changes in lending policies, business conditions, changes in the nature and size of the portfolio, portfolio concentrations, and external factors such as competition.

Allowance for Credit Losses are aggregated for the major loan segments, with similar risk characteristics, summarized below. However, for the purposes of calculating the reserves, these segments may be further broken down into loan classes by risk characteristics that include but are not limited to regulatory call codes, industry type, geographic location, and collateral type.

Residential real estate loans involve certain risks such as interest rate risk and risk of non-repayment. Adjustable-rate residential real estate loans decrease the interest rate risk to the Bank that is associated with changes in interest rates but involve other risks, primarily because as interest rates rise, the payment by the borrower rises to the extent permitted by the terms of the loan, thereby increasing the potential for default. At the same time, the marketability of the underlying properties may be adversely affected by

higher interest rates. Repayment risk may be affected by a number of factors including, but not necessarily limited to, job loss, divorce, illness and personal bankruptcy of the borrower.

Commercial and multi-family real estate lending entails additional risks as compared with residential family property lending. Such loans typically involve large loan balances to single borrowers or groups of related borrowers. The payment experience on such loans is typically dependent on the successful operation of the real estate project. The success of such projects is sensitive to changes in supply and demand conditions in the market for commercial real estate as well as general economic conditions.

Construction lending is generally considered to involve a high risk due to the concentration of principal in a limited number of loans and borrowers and the effects of the general economic conditions on developers and builders. Moreover, a construction loan can involve additional risks because of the inherent difficulty in estimating both a property's value at completion of the project and the estimated cost (including interest) of the project. The nature of these loans is such that they are generally difficult to evaluate and monitor. In addition, speculative construction loans to a builder are not necessarily pre-sold and thus pose a greater potential risk to the Bank than construction loans to individuals on their personal residence.

Commercial and industrial lending, including lines of credit, is generally considered higher risk due to the concentration of principal in a limited number of loans and borrowers and the effects of general economic conditions on the business. Commercial business loans are primarily secured by inventories and other business assets. In many cases, any repossessed collateral for a defaulted commercial business loans will not provide an adequate source of repayment of the outstanding loan balance.

Home equity lending entails certain risks such as interest rate risk and risk of non-repayment. The marketability of the underlying property may be adversely affected by higher interest rates, decreasing the collateral value securing the loan. Repayment risk can be affected by job loss, divorce, illness and personal bankruptcy of the borrower. Home equity line of credit lending entails securing an equity interest in the borrower's home. In many cases, the Bank's position in these loans is as a junior lien holder to another institution's superior lien. This type of lending is often priced on an adjustable rate basis with the rate set at or above a predefined index. Adjustable-rate loans decrease the interest rate risk to the Bank that is associated with changes in interest rates but involve other risks, primarily because as interest rates rise, the payment by the borrower rises to the extent permitted by the terms of the loan, thereby increasing the potential for default.

Consumer loans generally have more credit risk because of the type and nature of the collateral and, in certain cases, the absence of collateral. Consumer loans generally have shorter terms and higher interest rates than other lending. In addition, consumer lending collections are dependent on the borrower's continuing financial stability, and thus are more likely to be adversely affected by job loss, divorce, illness and personal bankruptcy. In many cases, any repossessed collateral for a defaulted consumer loan will not provide an adequate source of repayment of the outstanding loan.

The following tables present the activity in the allowance by portfolio segment for each of the three months ended March 31, 2023 and 2022:

					Three Mon	ths E	nded Mar	ch 31	l, 2023

As of March 31, 2023, the Company held \$5.6 million in non-accrual balances and a related ACL for approximately \$701. Within the non-accrual balances, \$4.5 million of these loans had no ACL associated to them.

The Company adopted ASU 2022-02, Financial Instruments – Credit Losses (Topic 326) Troubled Debt Restructurings and Vintage Disclosures ("ASU 2022-02") effective January 1, 2023. The amendments in ASU 2022-02 eliminated the recognition and measurement of troubled debt restructurings and enhanced disclosures for loan modifications to borrowers experiencing financial difficulty. The Company did not have any loans that were both experiencing financial difficulties and modified during the three months ended March 31, 2023.

In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting policy.

The following tables present the aging of the recorded investment in past-due loans as of March 31, 2023 and December 31, 2022 by class of loans:

		-59 Days ast Due	60-89 Days Past Due		Greater Than 90 Days		Total Past Due	No	Loans t Past Due

As of March 31, 2023 and December 31, 2022, loans in the process of foreclosure were \$2,624 and \$2,016 respectively, of which \$1,167 and \$578 were secured by residential real estate.

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis includes loans with an outstanding balance greater than \$350 thousand and non-homogeneous loans, such as commercial and commercial real estate loans. This analysis is performed on an annual basis. The Company uses the following definitions for risk ratings:

*Special Mention:* Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or the institution's credit position at some future date.

*Substandard:* Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well- defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

*Doubtful:* Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be passrated loans.

The following table summarizes the Company's loans by year of origination and internally assigned credit risk at March 31, 2023 and gross charge-offs for the three months ended March 31, 2023:

		ded Mai 2023	2022	2021	2020	2019	Prior	Revolving Loans	Revolving Loans to Term Loans		Total

Loans to certain directors and principal officers of the Company, including their immediate families and companies in which they are affiliated, amounted to \$16,861 and \$16,891 at March 31, 2023 and December 31, 2022, respectively.

## Note 4 — Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

*Level 1*: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

*Level* 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

*Level 3*: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate fair value:

*Investment Securities:* The fair values for investment securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2), using matrix pricing. Matrix pricing is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3).

*Individually Evaluated, or Collateral Dependent Loans and Other Real Estate Owned:* The fair value of collateral dependent loans that are individually evaluated for impairment is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach and resulted in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Collateral dependent loans are evaluated on a quarterly basis for additional impairment and adjusted in accordance with the allowance policy.

Appraisals are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by a third-party appraisal management company that the Company has engaged in accordance with internal vendor management policies and approval of the Company's Board of Directors. Once received, the appraisal review function is conducted by the appraisal management company and consists of a review of the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. Through this review, the appraisal management company evaluates the validity of the appraised value and the strength of the conclusions; which are subsequently confirmed by a member of the Credit Department. Discounts to the appraised value are then applied to recognize the carrying costs incurred until disposition, realtor fees, deterioration in the quality of the asset, and the age of the appraisal. The net effect of these adjustments were included in the charge-off to the allowance upon acquisition of the foreclosed property and/or upon partial charge-off of the collateral dependent loan. The most recent analysis of property appraisals including the appropriate discount rates are incorporated into the allowance methodology for the respective loan portfolio segments.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

			 Fair Value Measurements Using:				
	Total at March 31, 2023		Quoted Prices in Active Markets for Identical Assets (Level 1)		nificant Other Observable Inputs (Level 2)	Un	gnificant observable Inputs Level 3)
U.S. government agencies and treasuries	\$	93,683	\$ —	\$	93,683	\$	—
Mortgage-backed securities		320,544	—		320,544		—
Corporate securities		20,788			20,788		—
Obligations of states and political subdivisions		91,310			91,310		_
Total securities available-for-sale	\$	526,325	\$ 	\$	526,325	\$	

There were no transfers between Level 1 and Level 2 during the three months ended March 31, 2023.

		Fair Value Measurements Using:			
	Total at December 31, 2022	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
U.S. government agencies and treasuries	93,750	\$ —	\$ 93,750	\$ —	
Mortgage-backed securities	316,915		316,915	—	
Corporate securities	25,658	—	25,658		
Obligations of states and political subdivisions	97,138		97,138		
Total securities available-for-sale	\$ 533,461	\$ —	\$ 533,461	\$ —	

There were no transfers between Level 1 and Level 2 during 2022.

Assets measured at fair value on a non-recurring basis as of March 31, 2023 and December 31, 2022 are summarized below:

	 otal at 1 31, 2023	in Maı Identi	Fair Value Measurements U       Quoted Prices     Significant       in Active     Other       Markets for     Observable       Identical Assets     Inputs       (Level 1)     (Level 2)			Si Uno	gnificant bbservable Inputs Level 3)
Individually Evaluated Loans - Commercial Real Estate	\$ 204	\$	_	\$	_	\$	204
			Fair '	Value Mea	asurements U	Jsing:	
	 tal at er 31, 2022	in A Mar Identi	ed Prices Active kets for cal Assets evel 1)	C Obs Ir	nificant Other ervable iputs evel 2)	Und	gnificant observable Inputs Level 3)
Impaired loans	\$ 204	\$	·	\$		\$	204

The fair value amounts shown in the above table are individually evaluated loans net of reserves allocated to said loans. The total reserves allocated to these loans were \$104 and \$112 at March 31, 2023 and December 31, 2022, respectively.

The following table presents additional quantitative information about level 3 fair value measured at fair value on a non-recurring basis at March 31, 2023 and December 31, 2022:

March 31, 2023	F	air Value Value	Valuation Technique	Unobservable Input	Range (Weighted Average)				
Individually Evaluated Loans - Commercial									
Real Estate	\$ 204		\$ 204		\$ 204		Appraisal of collateral (1)	Appraisal and liquidation	20%
				adjustments (2)					
	]	Fair Value			Range				
December 31, 2022		Value	Valuation Technique	Unobservable Input	(Weighted Average)				
Impaired loans - Commercial Real Estate	\$	204	Appraisal of collateral (1)	Appraisal and liquidation	20%				
				adjustments (2)	(20%)				

(1) Fair value is generally determined through independent appraisals of the underlying collateral that generally include various level 3 inputs which are not identifiable.

(2) Appraisals may be adjusted downward by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.

The carrying amounts and estimated fair values of the Company's financial instruments not carried at fair value are as follows at March 31, 2023 and December 31, 2022:

	March 31, 2023						
	Carrying Amount	Fair Value	Level 1	Level 2	Level 3

#### Note 5 — Deposits

A summarized analysis of the Bank's deposits at March 31, 2023 and December 31, 2022:

	M	March 31, 2023		ember 31, 2022
Non-interest bearing demand accounts	\$	694,283	\$	723,228
Interest-bearing demand accounts		331,566		284,747
Money market accounts		606,368		615,149
Savings accounts		258,392		258,230
Certificates of Deposit		135,233		93,033
Total deposits	\$	2,025,842	\$	1,974,387

Time deposits that meet or exceed the FDIC insurance limit of \$250 at March 31, 2023 and December 31, 2022 were \$15,864 and \$17,015, respectively.

Uninsured deposits, net of fully collateralized municipal relationships, as of March 31, 2023 and December 31, 2022 totaled \$862 thousand and \$871 thousand, respectively.

Scheduled maturities of time deposits for the next five years as of March 31, 2023, are as follows:

2023	\$ 117,115
2024	8,673
2025	7,964
2026	1,481
	\$ 135,233

Deposits of executive officers, directors and principal officers of the Company, including their immediate families and companies in which they are affiliated, amounted to \$7,201 and \$15,648 at March 31, 2023 and December 31, 2022, respectively.

#### Note 6 — Pension Plan and Stock Compensation

The Bank has a funded noncontributory defined benefit pension plan that covers substantially all employees meeting certain eligibility requirements. The pension plan was closed to new participants and benefit accruals were frozen as of December 31, 2015. The plan provides defined benefits based on years of service and final average salary.

The components of net periodic benefit cost for the Company's noncontributory defined benefit pension plan for the three months ended March 31, 2023 and 2022 are as follows:

	Three Months Ended March 31,			
		2023		2022
Service cost	\$		\$	
Interest cost		279		202
Expected return on plan assets		(411)		(496)
Amortization of transition cost		—		(7)
Amortization of net loss		70		
Net periodic benefit cost/(income)	\$	(62)	\$	(301)

The Company has a time based restricted stock plan. For the three months ended March 31, 2023 and 2022, the Company's recognized stock-based compensation costs were \$28 and \$67, respectively. The Company uses the fair value of the common stock on the date of award to measure compensation cost for restricted stock awards. Compensation cost is recognized over the vesting period of the award using the straight line method. There were no restricted stock grants made during the three months ended March 31, 2023 and 2022. The grants generally vest at the rate of 33% per year with full vesting on the third anniversary date of the grant. Unamortized expense at March 31, 2023 was \$29.

A summary of the Company's restricted stock awards activity for the three months ended March 31, 2023 is presented below:

	Shares	Veighted erage Fair Value
Non-vested at beginning of period	11,677	\$ 29.24
Granted		\$
Vested	(7,569)	\$ 29.50
Forfeited	(414)	\$ 28.75
Non-vested at end of period	3,694	\$ 28.75

On September 22, 2021 restricted stock units (RSUs) were granted in the amount of 48,004 from the Company's 2019 Equity Incentive Plan to officers of the Bank and HVIA and directors of the Company in connection with the successful completion of the Company's initial public stock offering, listing on the NASDAQ Capital Market and the recent past years' success experienced by the Bank. Non-employee directors received 16,500 restricted stock units while officers received 31,504 restricted stock units. The restricted stock units granted to officers will vest over three years in approximately 33% increments on the first, second and third anniversary of the date of grant. The restricted stock units granted to nonemployee directors are 100% vested as of the date of grant and are settled in shares of Company common stock upon separation from service. In addition, the Company made a discretionary contribution of \$200,000 to the Company's KSOP Trust and purchased shares of the Company's common stock in the open market for the benefit of all eligible non-highly compensated employees who remain employed by the Company, Bank or HVIA as of December 31, 2021.

The following table summarizes the activity of RSUs during the three months ended March 31, 2023:

	Restricted Stock Units
Non-vested RSUs at beginning of period	59,747
Granted	22,650
Vested	(5,853)
Forfeited	(3,341)
Non-vested RSUs at end of period	73,203

#### Note 7 — Accumulated Other Comprehensive Income (Loss)

The following is a summary of changes in accumulated other comprehensive income (loss) by component, net of tax, for the three months ended March 31, 2023 and 2022:

	Т	Three Months Ende	ed March 31, 2023	
	Unrealized Gains and Losses on Available-for- Sale Securities	Defined Benefit Pension Items	Deferred Compensation Liability	Total
Beginning balance	\$ (60,430)	\$ (7,889)	\$ 123	\$ (68,196)

Also included in accumulated other comprehensive income (loss) as of March 31, 2023, is a credit loss expense which was recorded as provision for credit loss investments during the period.

## Note 8 — Revenue from Contracts with Customers

All of the Company's revenue from contracts with customers in the scope of ASC 606 is recognized within noninterest income. The following table presents the Company's gross sources of noninterest income for the three months ended March 31, 2023 and 2022.

	Th	ree Months H	Ended N	March 31,
		2023	_	2022
Noninterest Income				
Service charges on deposit accounts				
Overdraft fees	\$	81	\$	73
Other		93		95
Trust income		1,176		1,170
Investment advisory income		1,198		1,201
Investment securities gains (losses) <sup>(a)</sup>		107		
Earnings on bank owned life insurance <sup>(a)</sup>		238		233
Other <sup>(b)</sup>		277		233
Total Noninterest Income	\$	3,170	\$	3,005

(a) Not within the scope of ASC 606.

(b) The Other category includes safe deposit income, checkbook fees, and debit card fee income, totaling \$231 and \$191 for the three months ended March 31, 2023 and 2022, respectively, that are within the scope of ASC 606 and loan related fee income and miscellaneous income, totaling \$46 and \$42 for the three months ended March 31, 2023 and 2022, respectively, which are outside the scope of ASC 606.

The Company earns wealth management fees, which includes trust income and investment advisory income, from its contracts with trust and brokerage customers to manage assets for investment, and/or to transact on their accounts. These fees are primarily earned over time as the Company provides the contracted services and are generally assessed based on a tiered scale of the market value of the assets under management at month-end or quarter-end.

#### Note 9 — Segment Information

The reportable segments are determined by the products and services offered by the Company, primarily distinguished between banking and wealth management. Loans, investments, and deposits provide the revenues in the banking operation, and trust fees and investment management fees provide the revenues in wealth management. All operations are domestic.

Significant segment totals are reconciled to the financial statements as follows:

		For the three months ended March 31, 2023

#### Note 10 — Regulatory Capital Matters

The Bank is subject to regulatory capital requirements administered by the federal banking agencies. Capital adequacy guidelines and prompt corrective regulations involve quantitative measures of assets, liabilities and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgements by regulators. Failure to meet the minimum capital requirements can initiate regulatory action. The final rules implementing Basel Committee on Banking Supervision's capital guidelines for U.S. banks, (Basel III rules), became effective for the Bank on January 1, 2015 with full compliance with all of the requirements being phased in over a multi-year schedule, and fully phased in by January 1, 2019. Under the Basel III rules, the Bank must hold a capital conservation buffer above the adequately capitalized risk-based capital ratios. The regulations limit capital distributions and certain discretionary bonus payments to management if the institution does not hold a "capital conservation buffer is 2.5%. The net unrealized gain or loss on available for sale securities is not included in computing regulatory capital.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion and capital restoration plans are required. Capital levels at March 31, 2023 and at December 31, 2022 exceeded the regulatory minimum levels to be considered well capitalized under the prompt corrective action regulations.

Actual and required capital amounts and ratios are presented below at March 31, 2023 and December 31, 2022 for the Bank.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations at March 31, 2023 and December 31, 2022 and for the three months ended March 31, 2023 and 2022 should be read in conjunction with our audited consolidated financial statements and the accompanying notes in our Annual Report on Form 10-K. This discussion and analysis contains forward-looking statements that are subject to certain risks and uncertainties and are based on certain assumptions that we believe are reasonable but may prove to be inaccurate. Certain risks, uncertainties and other factors, including those set forth under "Cautionary Note Regarding Forward-Looking Statements" and elsewhere in this Quarterly Report on Form 10-Q, may cause actual results to differ materially from those projected results discussed in the forward-looking statements appearing in this discussion and analysis. We assume no obligation to update any of these forward-looking statements.

#### **Cautionary Note Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of section 21E of the Securities Exchange Act of 1934. These forward-looking statements reflect our current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as "may," "might," "should," "could," "predict," "potential," "believe," "expect," "attribute," "continue," "will," "anticipate," "seek," "estimate," "intend," "plan," "projection," "goal," "target," "outlook," "aim," "would," "annualized" and "outlook," or the negative version of those words or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements include, but are not limited to:

- statements of our goals, intentions and expectations;
- statements regarding our business plans, prospects, growth and operating strategies;
- statements regarding the quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions, estimates and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- inflation and changes in the interest rate environment that reduce our margins or reduce the fair value of financial instruments;
- general economic conditions, either nationally or in our market areas, that are worse than expected;
- changes in the level and direction of loan delinquencies and write-offs and changes in estimates of the adequacy of the allowance for credit losses;
- our ability to access cost-effective funding;
- recent events involving the failure of financial institutions may adversely affect our business, and the market price of our common stock;
- fluctuations in real estate values and both residential and commercial real estate market conditions;
- demand for loans and deposits in our market area;
- our ability to implement and change our business strategies;
- competition among depository and other financial institutions;
- the rate of delinquencies and amounts of loans charged-off;
- fluctuations in real estate values and both residential and commercial real estate market conditions;
- adverse changes in the securities markets;
- fluctuations in the stock market may have a significant adverse effect on transaction fees, client activity and client investment
  portfolio gains and losses related to our trust and wealth management business;

- changes in laws or government regulations or policies affecting financial institutions, including changes in regulatory fees and capital requirements;
- our ability to enter new markets successfully and capitalize on growth opportunities;
- our ability to capitalize on strategic opportunities;
- our ability to successfully introduce new products and services;
- our ability to successfully integrate into our operations any assets, liabilities, customers, systems and management personnel we
  may acquire and our ability to realize related revenue synergies and cost savings within expected time frames, and any goodwill
  charges related thereto;
- our ability to retain our existing customers;
- changes in consumer spending, borrowing and savings habits;
- changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board, the Securities and Exchange Commission or the Public Company Accounting Oversight Board;
- changes in our organization, compensation and benefit plans;
- changes in the quality or composition of our loan or investment portfolios;
- a breach in security of our information systems, including the occurrence of a cyber incident or a deficiency in cyber security;
- political instability or civil unrest;
- acts of war or terrorism;
- competition and innovation with respect to financial products and services by banks, financial institutions and non-traditional providers, including retail businesses and technology companies;
- the failure to attract and retain skilled people;
- any future FDIC insurance premium increases, or special assessment may adversely affect our earnings;
- the fiscal and monetary policies of the federal government and its agencies; and
- other economic, competitive, governmental, regulatory and operational factors affecting our operations, pricing, products and services described elsewhere in this Quarterly Report on Form 10-Q.

The foregoing factors should not be construed as exhaustive and should be read in conjunction with other cautionary statements that are included in this Quarterly Report on Form 10-Q. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made, and we do not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. New risks and uncertainties arise from time to time, and it is not possible for us to predict those events or how they may affect us. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

#### Overview

We are a bank holding company headquartered in Middletown, New York and registered under the Bank Holding Company Act. Through our wholly owned subsidiaries, Orange Bank & Trust Company and Hudson Valley Investment Advisors, Inc., we offer fullservice commercial and consumer banking products and services and trust and wealth management services to small businesses, middlemarket enterprises, local municipal governments and affluent individuals in the Lower Hudson Valley region, the New York metropolitan area and nearby markets in Connecticut and New Jersey. By combining the high-touch service and relationship-based focus of a community bank with the extensive suite of financial products and services offered by our larger competitors, we believe we can capitalize on the substantial growth opportunities available in our market areas. We also offer a variety of deposit accounts to businesses and consumers, including checking accounts and a full line of municipal banking accounts through our business banking platform. These activities, together with our 15 offices and one loan production office, generate a stable source of low- cost core deposits and a diverse loan portfolio with attractive risk-adjusted yields. We also offer private banking services through Orange Bank & Trust Private Banking, a division of Orange Bank & Trust Company, and provide trust and wealth management services through Orange Bank & Trust Company's trust services department and HVIA, which combined had \$1.3 billion in assets under management at March 31, 2023. As of March 31, 2023, our assets, loans, deposits and stockholders' equity totaled \$2.5 billion, \$1.7 billion, \$2.0 billion and \$148.6 million, respectively.

#### **Key Factors Affecting Our Business**

*Net Interest Income.* Net interest income is the most significant contributor to our net income and is the difference between the interest and fees earned on interest-earning assets and the interest expense incurred in connection with interest-bearing liabilities. Net interest income is primarily a function of the average balances and yields/rates of these interest-earning assets and interest-bearing liabilities. These factors are influenced by internal considerations such as product mix and risk appetite as well as external influences such as economic conditions, competition for loans and deposits and market interest rates.

The cost of our deposits and short-term borrowings is primarily based on short-term interest rates, which are largely driven by the Board of Governors of the Federal Reserve System's (the "FRB") actions and market competition. The yields generated by our loans and securities are typically affected by short-term and long-term interest rates, which are driven by market competition and market rates often impacted by the FRB's actions. The level of net interest income is influenced by movements in such interest rates and the pace at which such movements occur.

We anticipate that interest rates will continue to increase over the next several quarters. Based on our asset sensitivity, a steepened yield curve and higher interest rates generally could have a beneficial impact on our net interest income. Conversely, a flat yield curve at lower rates would be expected to have an adverse impact on our net interest income.

*Noninterest Income*. Noninterest income is also a contributor to our net income. Noninterest income consists primarily of our investment advisory income, trust income generated by HVIA and our trust department, as well as income generated by our BOLI investment earnings. In addition, noninterest income is also impacted by net gains (losses) on the sale of investment securities, service charges on deposit accounts, and other fee income consisting primarily of debit card fee income, checkbook fees and rebates and safe deposit box rental income.

*Noninterest Expense*. Noninterest expense includes salaries, employee benefits, occupancy, furniture and equipment expense, professional fees, directors' fees and expenses, computer software expense, Federal deposit insurance assessment, advertising expenses, advisor expenses related to trust income and other expenses. In evaluating our level of noninterest expense, we closely monitor our efficiency ratio. The efficiency ratio is calculated by dividing noninterest expense to net interest income plus noninterest income. We continue to seek to identify ways to streamline our business and operate more efficiently.

*Credit Quality.* We have well established loan policies and underwriting practices that have resulted in low levels of charge-offs and nonperforming assets in recent periods. We strive to originate quality loans that will maintain the credit quality of our loan portfolio. However, credit trends in the markets in which we operate are largely impacted by economic conditions beyond our control and can adversely impact our financial condition.

*Competition.* The industry and businesses in which we operate are highly competitive. We may see increased competition in different areas including interest rates, underwriting standards and product offerings and structure. While we seek to maintain an appropriate return on our investments, we anticipate that we will experience continued pressure on our net interest margins as we operate in this competitive environment.

*Economic Conditions.* Our business and financial performance are affected by economic conditions generally in the United States and more directly in the market of the Lower Hudson Valley region, the New York metropolitan area and nearby markets in Connecticut and New Jersey where we primarily operate. The significant economic factors that are most relevant to our business and our financial performance include, but are not limited to, real estate values, interest rates and unemployment rates.

**Regulatory Trends.** We operate in a highly regulated environment and nearly all of our operations are subject to extensive regulation and supervision. Bank or securities regulators, Congress, the State of New York, FRB and the New York State Department of Financial Services (the "NYSDFS") may revise the laws and regulations applicable to us, may impose new laws and regulations, increase the level of scrutiny of our business in the supervisory process, and pursue additional enforcement actions against financial institutions. Future legislative and regulatory changes such as these may increase our costs and have an adverse effect on our business, financial condition and results of operations. The legislative and regulatory trends that will affect us in the future are impossible to predict with any certainty.

## **Critical Accounting Estimates**

Critical accounting estimates are necessary in the application of certain accounting policies and procedures and are particularly susceptible to significant change. Critical accounting policies are defined as those involving significant judgments and assumptions by management that could have a material impact on the carrying value of certain assets or on income under different assumptions or conditions. These critical estimates, policies and their application are periodically reviewed with the Audit Committee and the board of directors. Management believes that the most critical accounting estimates, which involve the most complex or subjective decisions or assessments, are as follows:

Allowance for Credit Losses. Management believes that the determination of the allowance for credit losses involves a high degree of complexity and requires management to make difficult and subjective judgments, which often require assumptions or estimates about highly uncertain matters. Changes in these judgments, assumptions or estimates could materially impact the results of operations for Orange County Bancorp.

On January 1, 2023, the Company adopted ASU 2016-13 (Topic 326), which replaced the incurred loss methodology with CECL for financial instruments measured at amortized cost and other commitments to extend credit. The allowance for credit losses is a valuation allowance for management's estimate of expected credit losses in the loan portfolio. The process to determine expected credit losses utilizes analytic tools and judgement and is reviewed on a quarterly basis. When management is reasonably certain that a loan balance is not fully collectable, an analysis is completed and a specific reserve may be established or a full or partial charge off could be recorded against the allowance. Subsequent recoveries, if any, are credited to the allowance. Management estimates the allowance balance via a quantitative analysis which considers available information from internal and external sources related to past loan loss and prepayment experience and current conditions, as well as the incorporation of reasonable and supportable forecasts. Management evaluates a variety of factors including available published economic information in arriving at its forecast. Expected credit losses are estimated over the contractual term of the loans, adjusted for expected prepayments when appropriate. Also included in the allowance for credit losses are gualitative reserves that are expected, but, in management's assessment, may not be adequately represented in the quantitative analysis or the forecasts described above. Factors may include changes in lending policies and procedures, size and composition of the portfolio, experience and depth of management and the effect of external factors such as competition, legal and regulatory requirements, among others. The allowance is available for any loan that, in management's judgment, should be charged off. Although management uses the best information available, the level of the allowance for credit losses remains an estimate, which is subject to significant judgment and short-term change. Various regulatory agencies, as an integral part of their examination process, periodically review the Bank's allowance for credit losses. Such agencies may require the Company to make additional provisions for credit losses based upon information available to them at the time of their examination. Furthermore, the majority of the Bank's loans are secured by real estate in the State of New York. Accordingly, the collectability of a substantial portion of the carrying value of the Bank's loan portfolio is susceptible to changes in local market conditions and any adverse economic conditions. Future adjustments to the provision for credit losses and allowance for credit losses may be necessary due to economic, operating, regulatory and other conditions beyond the Company's control.

#### **Discussion and Analysis of Financial Condition**

*Summary Financial Condition.* The following table sets forth a summary of the material categories of our balance sheet at the dates indicated:

				Change h 31, 2023 vs.
	As of March 31, 2023	As of December 31, 2022	Decem Amount (\$)	ber 31, 2022 Percentage (%)
	2025	(Dollars in the		rereentage (70)
Assets	2,454,998	2,287,334	167,664	7.3 %
Cash and due from banks	165,297	86,081	79,216	92.0 %
Loans, net	1,638,642	1,547,598	91,044	5.9 %
Investment securities, available for sale	526,325	533,461	(7,136)	(1.3)%
Deposits	2,025,842	1,974,387	51,455	2.6 %
FHLB advances, short term	229,000	131,500	97,500	74.1 %
FHLB advances, long term	10,000		10,000	100.0 %
Subordinated notes, net of issuance costs	19,466	19,447	19	0.1 %
Stockholders' Equity	148,580	138,138	10,442	7.6 %

*Assets.* Our total assets were \$2.5 billion at March 31, 2023, an increase of \$166.9 million, or 7.3%, from \$2.3 billion at December 31, 2022. The increase was primarily driven by an increase in net loans of \$90.7 million, or 5.9%. The increase in assets also included an increase in cash and due from banks of \$79.2 million, or 92.0%.

*Cash and due from banks.* Cash and due from banks increased \$79.2 million, or 92.0%, to \$165.3 million at March 31, 2023, from \$86.1 million at December 31, 2022. The increase was driven mainly by a strategic focus on increasing cash balances through borrowings in order to raise on-hand cash levels during a period of industry liquidity concerns.

Loans. The following table sets forth the composition of our loan portfolio by type of loan at the dates indicated.

	At Marcl 2023		At Decemb 2022		
	Amount	Percent	Amount	Percent	
		(Dollars in	thousands)		
Commercial and industrial	\$ 252,882	15.20 %	\$ 257,184	16.39 %	
Commercial real estate	1,192,501	71.69 %	1,098,054	69.97 %	
Commercial real estate construction	116,077	6.98 %	109,570	6.98 %	
Residential real estate	73,156	4.40 %	74,277	4.73 %	
Home equity	12,067	0.73 %	12,329	0.79 %	
Consumer	14,975	0.90 %	16,299	1.04 %	
PPP loans	1,710	0.10 %	1,717	0.11 %	
Total loans	1,663,368	100.00 %	1,569,430	100.00 %	
Allowance for credit losses	24,726		21,832		
Total loans, net	\$ 1,638,642		\$ 1,547,598		

Net loans increased \$91.0 million, or 5.9%, to \$1.6 billion at March 31, 2023 from \$1.5 billion at December 31, 2022 primarily due to increases in commercial real estate and commercial real estate construction loan categories during the first three months of 2023. Commercial real estate loans increased \$94.4 million, or 8.6%, to \$1.2 billion at March 31, 2023 from \$1.1 billion at December 31, 2022. Commercial real estate construction loans experienced an increase of \$6.5 million, or 5.9%, to \$116.1 million at March 31, 2023 from \$109.6 million at December 31, 2022. The commercial real estate related growth was primarily the result of increased loan originations to new and existing customers during the first three months of 2023 as well as our continued strategic focus on geographic expansion in our market area.

#### **Non-performing Assets**

Management determines that a loan is individually evaluated or non-performing when it is probable at least a portion of the loan will not be collected in accordance with the original terms due to a deterioration in the financial condition of the borrower or the value of the underlying collateral if the loan is collateral dependent. When a loan is determined to be non-performing, the measurement of the loan in the allowance for credit losses is based on the fair value of the collateral for all collateral-dependant loans. Non-accrual loans are loans for which collectability is questionable and, therefore, interest on such loans will no longer be recognized on an accrual basis. All loans that become 90 days or more delinquent are placed on non-accrual status unless the loan is well secured and in the process of collection. When loans are placed on non-accrual status, unpaid accrued interest is fully reversed, and further income is recognized only to the extent received on a cash basis or cost recovery method.

When we acquire real estate as a result of foreclosure, the real estate is classified as real estate owned. The real estate owned is recorded at the lower of carrying amount or fair value, less estimated costs to sell. Soon after acquisition, we order a new appraisal to determine the current market value of the property. Any excess of the recorded value of the loan satisfied over the market value of the property is charged against the allowance for credit losses, or, if the existing allowance is inadequate, charged to expense of the current period. After acquisition, all costs incurred in maintaining the property are expensed. Costs relating to the development and improvement of the property, however, are capitalized to the extent of estimated fair value less estimated costs to sell. Management will consider a modification of loan terms, such as a reduction of the principal amount due, when it is deemed appropriate based on individual borrower conditions. Interest income on restructured loans is accrued after the borrower demonstrates the ability to pay under the restructured terms through a sustained period of repayment performance, which is generally six consecutive months.

The following table sets forth information regarding our non-performing assets. Non-performing loans aggregated approximately \$8.0 million at March 31, 2023 as compared to \$8.5 million at December 31, 2022. At March 31, 2023 and December 31, 2022, there were no PPP loans considered as non-performing.

Ratios:						
Total non-performing loans to total loans		0.48 %	, )	0.54 %		
Total non-performing loans to total assets		0.32 %	, )	0.37 %		
Total non-performing assets to total assets		0.32 %	, )	0.37 %		

Non-performing loans at March 31, 2023 totaled \$8.0 million and consisted primarily of \$3.5 million of commercial real estate loans, \$1.2 million of residential real estate loans, approximately \$817 thousand of commercial and industrial loans, and \$49 thousand of home equity loans. The decrease in non-performing loans represents the effect of continued collection efforts and the resolution of certain syndicated loans during the period. We had no other real estate owned at March 31, 2023 and December 31, 2022, respectively.

Non-performing assets decreased \$500 thousand, or 5.9%, to \$8.0 million, or 0.32% of total assets, at March 31, 2023 from \$8.5 million, or 0.37% of total assets, at December 31, 2022. The decrease in non-performing assets at March 31, 2023, compared to December 31, 2022 was primarily due to a decrease of \$333 thousand in non-performing commercial real estate loans, driven mainly by workout of a specific loan relationship.

From time to time, as part of our loss mitigation strategy, we may renegotiate loan terms based on the economic and legal reasons related to the borrower's financial difficulties. There were no loans modified due to financial difficulties during the three months ended March 31, 2023.

*Classified Assets.* Federal regulations provide that loans and other assets of lesser quality should be classified as "substandard", "doubtful" or "loss" assets. An asset is considered "substandard" if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. "Substandard" assets include those characterized by the "distinct possibility" that we will sustain "some loss" if the deficiencies are not corrected. Assets classified as "doubtful" have all of the weaknesses inherent in those classified "substandard," with the added characteristic that the weaknesses present make "collection or liquidation in full," on the basis of currently existing facts, conditions, and values, "highly questionable and improbable." Assets classified as "loss" are those considered "uncollectible" and of such little value that their continuance as assets without the establishment of a specific loss reserve is not warranted. We designate an asset as "special mention" if the asset has a potential weakness that warrants management's close attention.

The following table summarizes classified assets of all portfolio types at the dates indicated:

	At	At March 31, 2023 (Dollars in		ecember 31, 2022 ids)
Classification of Assets:				
Substandard	\$	17,778	\$	18,433
Doubtful				
Loss		_		_
Total Classified Assets	\$	17,778	\$	18,433
Special Mention	\$	7,426	\$	7,974

On the basis of management's review of our assets, we have classified \$17.8 million of our assets at March 31, 2023 as substandard compared to \$18.4 million at December 31, 2022, due to certain charge-offs recorded during the period. There were no doubtful accounts as of March 31, 2023 and December 31, 2022, respectively. We designated \$7.4 million of our assets at March 31, 2023 as special mention compared to \$8.0 million designated as special mention at December 31, 2022, as a result of migration out of the category.

# Allowance for Credit Losses

On January 1, 2023, the Company adopted ASU 2016-13 (Topic 326), which replaced the incurred loss methodology with CECL for financial instruments measured at amortized cost and other commitments to extend credit. The allowance for credit losses is a valuation allowance for management's estimate of expected credit losses in the loan portfolio. The process to determine expected credit losses utilizes analytic tools and judgement and is reviewed on a quarterly basis. When management is reasonably certain that a loan balance is not fully collectable, an analysis is completed and a specific reserve may be established or a full or partial charge off could be recorded against the allowance. Subsequent recoveries, if any, are credited to the allowance. Management estimates the allowance balance via a quantitative analysis which considers available information from internal and external sources related to past loan loss and prepayment experience and current conditions, as well as the incorporation of reasonable and supportable forecasts. Management evaluates a variety of factors including available published economic information in arriving at its forecast. Expected

credit losses are estimated over the contractual term of the loans, adjusted for expected prepayments when appropriate. Also included in the allowance for credit losses are qualitative reserves that are expected, but, in management's assessment, may not be adequately represented in the quantitative analysis or the forecasts described above. Factors may include changes in lending policies and procedures, size and composition of the portfolio, experience and depth of management and the effect of external factors such as competition, legal and regulatory requirements, among others. The allowance is available for any loan that, in management's judgment, should be charged off. Although management uses the best information available, the level of the allowance for credit losses remains an estimate, which is subject to significant judgment and short-term change. Various regulatory agencies, as an integral part of their examination process, periodically review the Bank's allowance for credit losses. Such agencies may require the Company to make additional provisions for credit losses based upon information available to them at the time of their examination. Furthermore, the majority of the Bank's loans are secured by real estate in the State of New York. Accordingly, the collectability of a substantial portion of the carrying value of the Bank's loan portfolio is susceptible to changes in local market conditions and any adverse economic conditions. Future adjustments to the provision for credit losses and allowance for credit losses may be necessary due to economic, operating, regulatory and other conditions beyond the Company's control.

The allowance for credit losses increased by \$2.9 million, or 13.3%, to \$24.7 million, or 1.49% of total loans at March 31, 2023, from \$21.8 million, or 1.39% of total loans at December 31, 2022. The increase in the allowance was primarily due to increased provision resulting from the growth in our commercial real estate loan portfolio as well as the cumulative effect of the CECL adjustment recorded during the quarter.

### **Investment Securities**

The following table sets forth the estimated fair value of our available-for-sale securities portfolio at the dates indicated.

	At March 31, 2023					At December 31, 2022			
	P	Amortized		Estimated	A	Amortized		Estimated	
	Cost			Fair Value (Dollars in	thou	Cost thousands)		Fair Value	
Available for sale securities:				(Bondra III	inou	, and s			
U.S. government agencies and treasuries	\$	102,194	\$	93,683	\$	104,734	\$	93,750	
Mortgage-backed securities		360,748		320,544		364,690		316,915	
Corporate securities		28,553		20,788		28,559		25,658	
Obligations of states and political subdivisions		104,133		91,310		111,971		97,138	
Total	\$	595,628	\$	526,325	\$	609,954	\$	533,461	

Available for sale securities decreased \$7.1 million, or 1.3%, to \$526.3 million at March 31, 2023 from \$533.4 million at December 31, 2022, due primarily to the sale of certain investments during a period of limited purchases as all investment categories experienced declines due to normal amortization and cash flow during the period. These decreases represent management's intention to maintain the portfolio during the three months ended March 31, 2023.

We did not have held-to-maturity securities at March 31, 2023 and December 31, 2022.

During the first quarter of 2023, the Company recorded a credit loss associated with a corporate bond issued by Signature Bank resulting in a provision for credit losses totaling \$5.0 million during the three months ended March 31, 2023. This loss represents the direct result of the failure of that bank during the first quarter of 2023.

# Deposits

The following table sets forth our total deposit account balances, by account type, at the dates indicated:

	At M	Iarch 31, 2023		At December 31, 2022			
	Amount	Percent	Average Rate	Amount	Percent	Average Rate	
Noninterest-bearing demand deposits	\$ 694,283	34.27 %		thousands) \$ 723,228	36.63 %	_	
Interest bearing demand deposits	331,566	16.37 %	0.33 %	284,747	14.42 %	0.31 %	
Money market deposits	606,368	29.93 %	1.32 %	615,149	31.16 %	0.97 %	
Savings deposits	258,392	12.75 %	0.93 %	258,230	13.08 %	0.72 %	
Certificates of deposit	135,233	6.68 %	3.13 %	93,033	4.71 %	1.74 %	
Total	\$ 2,025,842	100.00 %	0.78 %	\$ 1,974,387	100.00 %	0.52 %	

Total deposits increased \$51.5 million, or 2.6%, to \$2.0 billion at March 31, 2023 from December 31, 2022. Certificates of deposit increased by \$42.0 million, or 45.4%, mainly from increased brokered deposits during the quarter which represented a strategic focus on increasing liquidity during the quarter as a result of the volatility within the industry. Interest bearing demand deposits experienced a \$46.8 million, or 16.4%, increase. Non-interest-bearing demand deposits decreased \$28.9 million, money market deposits decreased \$8.8 million, and savings deposits remained relatively level during the first three months of 2023 primarily related to our strategic focus on business account activity as well as the impact of liquidity pressure within the banking industry. At March 31, 2023, our core deposits (which includes all deposits except for certificates of deposit) totaled \$1.9 billion, or 93.3% of our total deposits. We held approximately \$93.0 million of brokered deposits (excluding reciprocal deposits obtained through the Certificate Deposit Account Registry Service (CDARS) and Insured Cash Sweep (ICS) networks) at March 31, 2023. This increase was driven by a strategic focus to increase liquidity during the period. Our reciprocal deposits obtained through the CDARS and ICS networks totaled \$10.5 million and \$78.4 million, respectively, at March 31, 2023 and the CDARS and ICS networks totaled \$12.5 million and \$40.9 million, respectively, at December 31, 2022.

### Borrowings

Our borrowings consist of both short-term and long-term borrowings and provide us with one of our sources of funding. Maintaining available borrowing capacity provides us with a contingent source of liquidity.

Total borrowings from the Federal Home Loan Bank of New York were \$239.0 million at March 31, 2023 and \$131.5 million at December 31, 2022. We have the capacity to borrow an additional \$218.0 million from the Federal Home Loan Bank of New York as of March 31, 2023.

In September 2020, we issued \$20.0 million in aggregate principal amount of fixed to floating subordinated notes (the "2020 Notes") to certain institutional investors. The 2020 Notes are non-callable for five years, have a stated maturity of September 30, 2030, and bear interest at a fixed rate of 4.25% per year until September 30, 2025. From September 30, 2025 to the maturity date or early redemption date, the interest rate will reset quarterly to a level equal to the then current three-month SOFR plus 413 basis points, payable quarterly in arrears.

# **Stockholders' Equity**

Stockholders' equity experienced an increase of approximately \$10.0 million, to \$148.6 million, at March 31, 2023 from \$138.2 million at December 31, 2022. The increase was due mainly to a \$7.0 million decrease in unrealized losses on the market value of investment securities recognized within the Company's equity as accumulated other comprehensive income(loss) ("AOCI"), net of taxes as a direct result of market interest rates. In addition to the AOCI fluctuation, the Bank recognized an increase in retained earnings of approximately \$3.2 million associated with earnings during the first three months of 2023, net of dividends paid. The Company's stockholders' equity also included the effect of a cumulative adjustment of approximately \$1.6 million, net of taxes, associated with the initial adjustment related to CECL implementation during the quarter.

### Average Balance Sheets and Related Yields and Rates

The following table presents average balance sheet information, interest income, interest expense and the corresponding average yields earned and rates paid for the three months ended March 31, 2023 and 2022. No tax equivalent yield adjustments have been made, as the effects would be immaterial. The average balances are daily averages for loans, as presented. Interest income on loans includes the effects of discount accretion and net deferred loan origination costs accounted for as yield adjustments. Net deferred loan fees totaled \$4.2 million and \$3.5 million for the three months ended March 31, 2023 and 2022, respectively.

liabilities			153.3 %			162.9 %

(1) Annualized.

(2) Net interest rate spread represents the difference between the weighted average yield on interest-earning assets and the weighted average rate of interest-bearing liabilities.

(3) Net interest-earning assets represent total interest-earning assets less total interest-bearing liabilities.

(4) Net interest margin represents net interest income divided by average total interest-earning assets.

### **Rate/Volume Analysis**

The following table presents the dollar amount of changes in interest income and interest expense for major components of interest earning assets and interest-bearing liabilities for the periods indicated. The table distinguishes between: (1) changes attributable to volume (changes in volume multiplied by the prior period's rate); (2) changes attributable to rate (change in rate multiplied by the prior year's volume) and (3) total increase (decrease) (the sum of the previous columns). Changes attributable to both volume and rate are allocated ratably between the volume and rate categories.

	Three Months Ended March 31, 2023 vs. 2022

			,		( )	· · /

*General.* Net income decreased \$2.1 million, or 39.4%, to \$3.2 million for the three months ended March 31, 2023 from \$5.3 million for the three months ended March 31, 2022. The decrease was driven by an increase of \$5.4 million in the provision for credit losses and an increase of \$2.2 million in noninterest expense, offset by a \$4.8 million increase in net interest income during the current quarter as compared to the same quarter in 2022. The increase in the provision for credit losses during the three months ended

March 31, 2023 as compared to the same period in 2022 was mainly associated with the recognition of a \$5.0 million loss with the investment in subordinated debt of Signature Bank, which was closed during the quarter ended March 31, 2023.

*Interest Income*. Interest income increased \$9.1 million, or 52.7%, to \$26.4 million for the three months ended March 31, 2023 from \$17.3 million for the three months ended March 31, 2022. This increase was primarily the result of an increase in the average balance of interest-earning assets, which increased by \$116.1 million, or 5.4%, to \$2.3 billion for the three months ended March 31, 2023 from \$2.1 billion for the three months ended March 31, 2022. In addition, the average yield of interest-earning assets increased by 146 basis points from 3.26% for the three months ended March 31, 2022 to 4.72% for the three months ended March 31, 2023 as a result of the continued rising interest rate environment.

Interest income on loans increased by \$6.8 million, or 45.5%, to \$21.8 million during the three months ended March 31, 2023 from \$15.0 million during the three months ended March 31, 2022. The increase in interest income on loans was primarily due to the increase in the average balance of loans (net of PPP loans). The average balance of these loans increased by \$353.4 million, or 27.9%, to \$1.6 billion for the three months ended March 31, 2023 compared to \$1.3 billion for the three months ended March 31, 2022. The average yield on loans, excluding PPP loans, increased by 86 basis points to 5.47% for the three months ended March 31, 2023 from 4.61% for the three months ended March 31, 2022. The increase in the average balance of loans was due to our continued success in growing our commercial real estate, commercial real estate construction, and commercial and industrial loans. The increase in the average yield on loans was the direct result of loans that closed during the fourth quarter of 2022 that included the impact of the FRB's increase to its benchmark rate during 2022.

Interest income on securities increased by \$1.5 million, or 71.0%, to \$3.6 million during the three months ended March 31, 2023 from \$2.1 million during the three months ended March 31, 2022. The increase in interest income on securities was due to an increase in the average balance of securities as well as an increase in the average yield on securities during the current period. The average balance of securities increased by \$55.7 million, or 11.7%, to \$530.8 million for the three months ended March 31, 2023 compared to \$475.0 million for the three months ended March 31, 2022. The increase in the average balance of securities was primarily due to purchases of mortgage-backed securities, government agencies, and municipal securities with our excess liquidity. The average yield on investment securities increased by 95 basis points overall from 1.78% for the three months ended March 31, 2022 to 2.73% for the three months ended March 31, 2023. The increase in the average yield on securities resulted primarily from the deployment of excess cash into higher-yielding securities as a result of increasing market rates during 2022 and the first quarter of 2023.

*Interest Expense.* Interest expense increased \$4.3 million, or 461.2%, to \$5.2 million for the three months ended March 31, 2023 from \$931 thousand for the three months ended March 31, 2022. The increased interest expense was primarily the result of the increasing interest rate environment and the impact on deposit costs during the quarter. The average rate paid on interest-bearing deposits increased 70 basis points to 0.91% during the three months ended March 31, 2023 as compared to 0.21% for the three month period ended March 31, 2022. The average balance of interest-bearing deposits decreased by \$16.7 million, or 1.3%, to \$1.3 billion for the three months ended March 31, 2022.

Interest expense on interest-bearing deposits increased by \$2.2 million to \$2.9 million during the three months ended March 31, 2023 from \$658 thousand during the three months ended March 31, 2022. The increase in interest expense on interest-bearing deposits was due mainly to an increase in the average cost of deposits. The average cost of interest-bearing deposits increased 70 basis points to 0.91% during the three months ended March 31, 2023 as compared to 0.21% for the three months ended March 31, 2022. The average cost of interest-bearing deposits increased 70 basis points to 0.91% during the three months ended March 31, 2023 as compared to 0.21% for the three months ended March 31, 2022. The average cost of interest-bearing deposits increased due to the impact of the rising interest rate environment on deposit accounts.

We also expensed a relatively level amount of approximately \$231 thousand in interest expense for the three months ended March 31, 2023 and 2022 related to the issuance in September 2020 of \$20.0 million in outstanding subordinated notes, which carries an interest rate of 4.25%. These flat interest costs represent the debt service required as part of the 2020 subordinated notes.

Additionally, the first quarter 2023 included FHLB average borrowings of \$178 million compared to no borrowings in the same quarter of 2022. The interest expense related to the 2023 borrowings reached approximately \$2.1 million in cost and reflected an average rate of 4.80%. These increased borrowings represent the strategic focus to increase cash balances in response to the liquidity pressure experienced by the banking industry during the quarter.

*Net Interest Income.* Net interest income increased \$4.8 million, or 29.4%, to \$21.1 million for the three months ended March 31, 2023 from \$16.3 million for the three months ended March 31, 2022 due to an increase in net interest-earning assets as well as an

increase in net interest margin for the current period. Average total interest-earning assets increased by \$116.1 million to \$2.3 billion for the three months ended March 31, 2023 from approximately \$2.1 billion for the three months ended March 31, 2022. Net interest rate spread increased by 32 basis points to 3.29% for the three months ended March 31, 2023 from 2.97% for the three months ended March 31, 2022, reflecting a 114 basis points increase in the average rate paid on interest-bearing liabilities and a 146 basis points increase in the average yield on interest-earnings assets. The net interest margin increased 70 basis points to 3.78% for the three months ended March 31, 2023 from 3.08% for the three months ended March 31, 2022 due mainly to the increases in overall interest rates as well as deployment of funds into higher yielding loans and investments.

*Provision for Credit Losses.* The Company recognized a provision for credit losses of \$6.4 million for the three months ended March 31, 2023, compared to \$923 thousand for the three months ended March 31, 2022. The increased provision for the three months ended March 31, 2023 as compared to the same period in 2022 reflected the recognition of credit losses associated with a corporate security in the amount of \$5.0 million as well as additional provision related to the growth of the Company's loan portfolio during the period. Syndicated loans represent less than 4.5% of total loans at March 31, 2023. The allowance for credit losses to total loans was 1.49% as of March 31, 2023, an increase of 10 basis points, or 7.2%, versus 1.39% as of December 31, 2022.

Noninterest Income. Noninterest income information is as follows:

	Thre	ee Months E	Ended M		Change			
	2023			2022	ŀ	Amount	Percent	
	(Dollars in thousands)							
Service charges on deposit accounts	\$	174	\$	168	\$	6	3.6 %	
Trust income		1,176		1,170		6	0.5 %	
Investment advisory income		1,198		1,201		(3)	(0.2)%	
Investment securities gains		107				107	— %	
Earnings on bank owned life insurance		238		233		5	2.1 %	
Other		277		233		44	18.9 %	
Total noninterest income	\$	3,170	\$	3,005	\$	165	5.5 %	

Noninterest income increased by \$165 thousand, or 5.5%, and reached \$3.2 million for the three months ended March 31, 2023 as compared to \$3.0 million for the three months ended March 31, 2022 primarily as a result of gains on the sale of investment securities. Our Wealth Management division revenues, which include our Trust and Asset Management businesses were relatively level and represented a 0.3% increase quarter-over-quarter, remaining at approximately \$2.4 million for the first quarter of 2023 and 2022, respectively primarily as a result of increases in asset values. During the same period, assets-under-management for the Trust and Asset Management group experienced a slight decrease totaling approximately \$1.3 billion at March 31, 2023.

Noninterest Expense. Noninterest expense information is as follows:

	T	hree Months E	Ended N		Change			
		2023		2022 Amount			Percent	
		(Dollars in the						
Salaries	\$	6,254	\$	5,269	\$	985	18.7 %	
Employee benefits		1,867		1,401		466	33.3 %	
Occupancy expense		1,254		1,223		31	2.5 %	
Professional fees		1,048		879		169	19.2 %	
Directors' fees and expenses		230		345		(115)	(33.3)%	
Computer software expense		1,223		1,116		107	9.6 %	
FDIC assessment		330		309		21	6.8 %	
Advertising expenses		276		190		86	45.3 %	
Advisor expenses related to trust income		29		138		(109)	(79.0)%	
Telephone expenses		169		175		(6)	(3.4)%	
Intangible amortization		71		71		—		
Other	_	1,277		705		572	81.1 %	
Total noninterest expense	\$	14,028	\$	11,821	\$	2,207	18.7 %	

Non-interest expense was \$14.0 million for the first quarter of 2023, reflecting an increase of approximately \$2.2 million, or 18.7%, as compared to \$11.8 million for the same period in 2022. The increase in non-interest expense for the current three-month period was due to continued investment in overall Company growth, including increases in salaries and benefit costs, occupancy costs, information technology, and deposit insurance. Our efficiency ratio was 57.7% for the three months ended March 31, 2023, from 61.1% for the same period in 2022.

**Provision for Income Tax**. Our provision for income taxes for the three months ended March 31, 2023 was approximately \$696 thousand, compared to approximately \$1.3 million for the same period in 2022. The decrease for the current period was due mainly to a decrease in income before income taxes during the quarter. Our effective tax rate for the three-month period ended March 31, 2023, was 17.7%, as compared to 19.2% for the same period in 2022. The reduction in effective tax rates on the 2023 first quarter was due to the increase in proportion of non-taxable revenue (tax-exempt interest income and earnings on bank owned life insurance) compared with total pre-tax income.

#### Financial Position and Results of Operations of our Wealth Management Business Segment

We conduct our business through two business segments: (1) our banking business segment, which involves the delivery of loan and deposit products to our customers through Orange Bank & Trust Company; and (2) our wealth management business segment, which includes asset management and trust services to individuals and institutions through HVIA and Orange Bank & Trust Company that provides trust and investment management fee income.

The following tables present the statements of income and total assets for our reportable business segments for the periods indicated:

				At or	for	the Three Mo	nths	Ended Mare	h 31,			
				2023		2022						
	]	Wealth Banking Management		Total <u>Segments</u> (Dollars in thous		Banking (housands)		Wealth Management		Total Segments

Income tax expense		(584)		(112)		(696)		(1,169)		(101)		(1,270)
Net income	\$	2,782	\$	448	\$	3,230	\$	4,950	\$	380	\$	5,330
Assets under management and/or												
administration (AUM) (market value)	\$	—	\$1	,345,377	\$ 1	1,345,377	\$		\$1,	257,877	\$1	,257,877
Total assets	\$ 2	,446,684	\$	8,314	\$ 2	2,454,998	\$ 2	2,272,061	\$	9,002	\$ 2	,281,063

The market value of assets under management and/or administration at March 31, 2023 and 2022 was \$1.3 billion. This includes assets held at both Orange Bank & Trust Company and HVIA at March 31, 2023 and March 31, 2022.

Our expenses related to our wealth management business segment, which we record as noninterest expense, decreased \$76 thousand or 4.02%, to \$1.8 million for the three months ended March 31, 2023 compared to \$1.9 million for the three months ended March 31, 2022. The decrease in expenses was primarily due to expense control during the period.

### Liquidity and Capital Resources

*Liquidity.* Liquidity is the ability to meet current and future financial obligations of a short-term nature. Our primary sources of funds consist of deposit inflows, loan repayments and maturities and sales of securities. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition.

Our most liquid assets are cash and due from banks. The levels of these assets are dependent on our operating, financing, lending and investing activities during any given period. At March 31, 2023 and December 31, 2022, cash and due from banks totaled \$165.3 million and \$86.1 million, respectively. Securities classified as available-for-sale, which provide additional sources of liquidity, totaled \$526.3 million at March 31, 2023 and \$533.5 million at December 31, 2022.

Certificates of deposit due within one year of March 31, 2023 totaled \$117.1 million, or 86.6% of total certificates of deposit. At March 31, 2023, total certificates of deposit were \$135.2 million, or 6.7% of total deposits. The largest concentration of deposits represented brokered deposits in the amount of approximately \$99.0 million and were increased strategically due to the liquidity pressures within the banking industry during the first quarter of 2023. Certificates of deposit due within one year of December 31, 2022 totaled \$80.7 million, or 86.8% of total certificates of deposit. At December 31, 2022, total certificates of deposit were \$93.0 million, or 4.7% of total deposits.

We participate in IntraFi Network, allowing us to provide access to multi-million-dollar FDIC deposit insurance protection on deposits for customers, businesses and public entities. We can elect to sell or repurchase this funding as reciprocal deposits from other IntraFi Network banks depending on our funding needs. At March 31, 2023, we had a total of \$88.9 million of IntraFi Network deposits, all of which were repurchased as reciprocal deposits from the IntraFi Network.

Although customer deposits remain our preferred source of funds, maintaining back up sources of liquidity is part of our prudent liquidity risk management practices. We have the ability to borrow from the Federal Home Loan Bank of New York. At March 31, 2023, we had a total capacity of \$613.2 million, of which \$154.0 million was used to collateralize municipal deposits, and \$239.0 million was utilized for overnight advances. At March 31, 2023, we also had a \$3.2 million collateralized line of credit from the Federal Reserve Bank of New York with no outstanding balance. Additionally, we had a total of \$25.0 million of discretionary lines of credit at March 31, 2023. We also have a borrowing agreement with Atlantic Community Bankers Bank ("ACBB") to provide short-term borrowings of \$5.0 million at March 31, 2023. There were no outstanding borrowings with ACBB at March 31, 2023. Additional funding was available to the Bank through the Bank Term Funding Program ("BTFP"). The Bank did not utilize the BTFP funding source during the first quarter of 2023.

Our cash flows are comprised of three primary classifications: cash flows from operating activities, investing activities, and financing activities. Net cash provided by operating activities was \$8.2 million and \$3.1 million for the three months ended March 31, 2023 and 2022, respectively. Net cash used in investing activities, which consists primarily of disbursements for loan originations and the purchase of securities, offset by principal collections on loans, proceeds from the sale of securities and proceeds from maturing securities and pay downs on securities, was \$86.3 million and \$111.0 million for the three months ended March 31, 2023 and 2022, respectively. Net cash provided by financing activities, consisting of activity in deposit accounts and borrowings, was \$157.4 million and \$158.0 million for the three months ended March 31, 2023 and 2022, respectively.

We are committed to maintaining a strong liquidity position. We monitor our liquidity position daily. We anticipate that we will have sufficient funds to meet our current funding commitments. Based on our deposit retention experience, current pricing strategy and regulatory restrictions, we have the ability to retain and increase a substantial portion of maturing time deposits, and we can supplement our funding with borrowings in the event that we allow these deposits to run off at maturity.

*Capital Resources.* We are subject to various regulatory capital requirements administered by the FRB and the NYSDFS. At March 31, 2023 and December 31, 2022, we exceeded all applicable regulatory capital requirements, and were considered "well capitalized" under regulatory guidelines. See Note 10 to the Notes to the Unaudited Consolidated Financial Statements appearing elsewhere in this Quarterly Report on Form 10-Q for actual and required capital amounts and ratios at March 31, 2023 and December 31, 2022.

### **Off-Balance Sheet Arrangements**

*Off-Balance Sheet Arrangements.* We are a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of our customers. These financial instruments include commitments to extend credit, which involve elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. Our exposure to credit loss is represented by the contractual amount of the instruments. We use the same credit policies in making commitments as we do for on-balance sheet instruments.

At March 31, 2023, we had \$449.3 million in loan commitments outstanding. We also had \$13.9 million in standby letters of credit at March 31, 2023.

### **Effect of Inflation and Changing Prices**

The consolidated financial statements and related financial data included in this Quarterly Report on Form 10-Q have been prepared in accordance with generally accepted accounting principles in the United States of America, which require the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time due to inflation. The primary impact of inflation on our operations is reflected in increased operating costs. Unlike most industrial companies, virtually all the assets and liabilities of a financial institution are monetary in nature. As a result, interest rates generally have a more significant impact on a financial institution's performance than do general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information related to this item.

### **Item 4. Controls and Procedures**

An Evaluation of disclosure controls and procedures. As of the end of the period covered by this Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on their evaluation of the Company's disclosure controls and procedures as of March 31, 2023 the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")) are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and regulations are operating in an effective manner.

*Internal control over financial reporting*. Effective January 1, 2023, the Company adopted the CECL accounting guidance under ASU 2016-13 and ASC 326. The Company designed new controls and modified existing controls as part of this adoption to ensure compliance with the revised accounting and disclosure requirements. These additional controls over financial reporting included controls over model creation and design, model governance, assumptions, and expanded controls over loan level data. Other than as described above, there were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended March 31, 2023 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

# PART II - OTHER INFORMATION

### **Item 1. Legal Proceedings**

As of March 31, 2023, the Company is not currently a named party in a legal proceeding, the outcome of which would have a material effect on the financial condition or results of operations of the Company.

### Item 1A. Risk Factors

In addition to the other information contained in this Quarterly Report on Form 10-Q, the following risk factors represent a material update and addition to the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2022. Additional risks not presently known to us, or that we currently deem immaterial, may also adversely affect our business, financial condition or results of operations. Further, to the extent that any of the information contained in this Quarterly Report on Form 10-Q constitutes forward-looking statements, the risk factors set forth below also are a cautionary statement identifying

important factors that could cause our actual results to differ materially from those expressed in any forward-looking statements made by or on behalf of us.

# Recent events involving the failure of financial institutions may adversely affect our business, and the market price of our common stock.

Recent developments and events in the financial services industry, including the large-scale deposit withdrawals over a short period of time at Silicon Valley Bank, Signature Bank and First Republic Bank that resulted in the failure of those institutions have resulted in decreased confidence in banks among depositors, other counterparties and investors, as well as significant disruption, volatility and reduced valuations of equity and other securities of banks in the capital markets. These events have occurred against the backdrop of a rapidly rising interest rate environment which, among other things, has resulted in unrealized losses in longer duration securities and loans held by banks, more competition for bank deposits and may increase the risk of a potential recession. These events and developments could materially and adversely impact our business or financial condition, including through potential liquidity pressures, reduced net interest margins, and potential increased credit losses. These recent events and developments have, and could continue to, adversely impact the market price and volatility of our common stock. These recent events may also result in changes to laws or regulations governing banks and bank holding companies or result in the impositions of restrictions through supervisory or enforcement activities, including higher capital requirements, which could have a material impact on our businesses. The cost of resolving the recent failures may prompt the FDIC to increase its premiums above the recently increased levels or to issue additional special assessments.

# Failure to address the federal debt ceiling in a timely manner, downgrade of the U.S. credit rating, and uncertain credit and financial market conditions may affect the stability of securities issued or guaranteed by the federal government, which may adversely affect the valuation or liquidity of our investment securities portfolio and increase future borrowing costs.

As a result of uncertain political, credit and financial market conditions, including the potential consequences of the federal government defaulting on its obligations for a period of time due to federal debt ceiling limitations or other unresolved political issues, investments in financial instruments issued or guaranteed by the federal government pose credit default and liquidity risks. Downgrades to the U.S. credit rating could affect the stability of securities issued or guaranteed by the federal government and the valuation or liquidity of our portfolio of such investment securities, and could result in our counterparties requiring additional collateral for our borrowings. Further, unless and until U.S. political, credit and financial market conditions have been sufficiently resolved or stabilized, it may increase our future funding costs.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

### Item 3. Defaults Upon Senior Securities

Not applicable.

### Item 4. Mine Safety Disclosures

Not applicable.

### **Item 5. Other Information**

None.

# Item 6. Exhibits

See Exhibit Index.

# **CERTIFICATION OF CHIEF EXECUTIVE OFFICER**

# I, Michael J. Gilfeather, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Orange County Bancorp, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting, to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
